

IEEE TRANSACTIONS ON INDUSTRIAL INFORMATICS

A PUBLICATION OF THE IEEE INDUSTRIAL ELECTRONICS SOCIETY

AUGUST 2008

VOLUME 4

NUMBER 3

ITIICH

(ISSN 1551-3203)

Introducing Associate Editor Ju-Jang Lee	145
Towards a Systematic Test for Embedded Automotive Communication Systems	
..... <i>E. Armengaud, A. Steininger, and M. Horauer</i>	146
Hardware/Software Design Considerations for Automotive Embedded Systems	
..... <i>F. Salewski and S. Kowalewski</i>	156
The One-Shot Task Model for Robust Real-Time Embedded Control Systems	
..... <i>C. Lozoya, M. Velasco, and P. Martí</i>	164
Implementation of H-Infinity Control Algorithms for Sensor-Constrained Mechatronic Systems Using Low-Cost Microcontrollers	<i>R. Bautista-Quintero and M. J. Pont</i> 175
Stability Analysis and Practical Design Procedure of Time Delayed Control Systems With Communication Disturbance Observer	<i>K. Natori, R. Oboe, and K. Ohnishi</i> 185
Robust and Efficient Rule Extraction Through Data Summarization and Its Application in Welding Fault Diagnosis	<i>R. Gong, S. H. Huang, and T. Chen</i> 198

ANNOUNCEMENTS

Call for Papers—IEEE Symposium on Industrial Embedded Systems—SIES '2009	207
Call for Papers—14th IEEE International Conference in Emerging Technologies and Factory Automation—EFTA 2009	208
